A non-profit organization which facilitates and implements therapeutic recreational programs and opportunities to benefit people with disabilities and children with cancer. Five day advanced notification is requested.  
Call (406) 586-1781 for more information and reservations.

### Warning, Notification of Risk

The User of the ski area facilities, slopes and trails understands there are inherent dangers and risks of skiing that are part of the sport including: changing weather conditions; snow conditions as they exist or as they may change; including ice, hardpack, powder, packed powder, wind pack, corn snow, crust, slush, cutup snow, and machine-made snow; collisions with natural surface or subsurface conditions, such as bare spots, forest growth, rocks, stumps, streambeds, cliffs, trees, and other natural objects; collisions with lift towers, signs, posts, fences, enclosures, hydrants, waterpipes, or other artificial structures and their components; variations in steepness or terrain, whether natural or the result of slope design, snowmaking, or snow grooming operations, including but not limited to roads, freestyle terrain, ski jumps, catwalks and other terrain modifications; collisions with clearly visible or plainly marked equipment, including but not limited to lift equipment, snowmaking equipment, snow grooming equipment, trail maintenance equipment and snowmobiles, whether or not the equipment is moving; collisions with other skiers; the failure of a skier to ski within that skier's ability; skiing in a closed area or skiing outside the ski area boundary as designated on the ski area trail map; and restricted visibility caused by snow, wind, fog, sun, or darkness. Natural and man-made obstacles exist. Fencing, equipment covers, signs, rope lines and other marking devices may be in place and mark some, but not all, of the potential obstacles or hazards. These markers will not prevent injury. It is the User's responsibility to stay away from marked areas. The User acknowledges the existence of these risks and accept such risks, whether they are marked or unmarked.

### Warning, Risk of Avalanche

Avalanche hazard reduction measures within the ski area boundaries help reduce the risk of avalanches, but can not eliminate the possibility of an avalanche occurring in avalanche prone areas and runoff zones open for skiing.

### Chairlifts, Tows and Conveyors

There are inherent and other risks or dangers for those who are in the process of approaching, loading, riding, unloading and departing from chairlifts, tows and conveyors. All persons who use a chairlift, tow or conveyor shall be responsible for their own loading, riding and unloading, and shall be presumed to have sufficient ability, physical dexterity and/or personal assistance to negotiate and to be evacuated from the lift safely. No person shall embark without first understanding the proper loading, riding and unloading procedures.

The user of the ski area facilities, slopes and trails understands that skiing, and using aerial chairlifts, tows and conveyors may result in loss, damage, expense, or injury (including death) from the risks described herein and voluntarily accepts such risks. If you do not wish to accept these risks, return your ticket/pass to the Ticket Office for a refund before boarding any chairlift, tow or conveyor.

### “Your Responsibility Code”

Be aware that there are elements of risk in skiing and snowboarding that common sense and personal awareness can help reduce. Observe the code listed below and share with others the responsibility for a great skiing and riding experience.

Stay in control. You must be able to stop or avoid other people or objects.

People ahead of you have the right of way. It's your responsibility to avoid them.

Stop in a safe place for you and others. You must be visible from above.

When starting downhill or merging, look uphill and yield.

Always use devices to prevent runaway equipment.

Observe all signs and warnings. Keep off closed trails.

Know how to use the lifts safely. You must be able to load, ride and unload safely.

**Know The Code, It's Your Responsibility !!**

### Tree Well and Deep Snow Safety

#### Non Avalanche Related Snow Immersion Death NARSID AWARENESS

Skiing and snowboarding off of the groomed runs and in deep powder snow is one of the most exciting and appealing parts of our sport. However, if you decide to leave the groomed trails, you are voluntarily accepting the risks of falling into tree wells or deep snow and suffocating. A deep snow or tree well immersion accident occurs when a skier or rider falls into an area of deep unconsolidated snow and becomes immobilized and suffocates. Deaths resulting from these kinds of accidents are referred to as a NARSID or Non-Avalanche Related Snow Immersion Death. Skiers and riders are the only ones that can prevent this type of accident from happening. Learn how to travel safely in ungroomed deep snow areas and always ski and ride with a partner. If you have questions, please contact the Ski Patrol or visit [www.treewelldeepnowsafety.com](http://www.treewelldeepnowsafety.com) to learn about the risks and prevention of deep snow immersion accidents.

### Ski Patrol / In case of Accident

The Ski Patrol provides assistance, first aid and information to guests within the Ski Area Boundaries. In case of accident, place skis on end, crossed in the snow above the scene of the accident. Report the accident at any Patrol Station (located at the top terminals of Bridger Lift, Alpine Lift, Pierre's Knob Lift and Schlasmann's Lift) or at any chair lift terminal. Please provide the location of the accident, the description of the injured person and the nature of the injury.

**Please Ski with Caution, Be Aware of Unmarked Obstacles and Obey All Signs and Posted Warnings.**

### Mountain Regulations

All Users of the ski area facilities, slopes and trails are to abide by “Your Responsibility Code.” Bridger Bowl Mountain Regulations and Montana State Law. Pamphlets containing this information are available at the Ticket Office and other locations in the Base Area. Bridger Bowl reserves the right to cancel a ticket or pass without compensation for failure to comply with regulations and/or disregard for the safe use of the facilities, slopes and trails. This includes but is not limited to: reckless skiing, excessive speed, tucking, skiing under or thru closure lines, failure to present ticket/pass, theft of goods, services or equipment, disorderly conduct, vandalism, abusive profanity, intoxication, lift line and parking violations.

### Schlasmann's Lift and Ridge Terrain

Expert Skiers and Riders wishing to ride Schlasmann's Lift or access any Ridge Terrain are required to carry an Avalanche Transceiver operating at 457 KHz. A partner and shovel as well as the knowledge to travel safely in avalanche terrain are strongly recommended.

**No Easy Way Down, No Hazard Marking, No Grooming, No Marked Trails**

**Ski and Ride with Caution**

Ridge Terrain may only be accessed from Schlasmann's Lift or by a strenuous climb located at the top of Bridger Lift. The Fingers area may be accessed by climbing from the top of Pierre's Knob Lift.

### Uphill Travel Restriction

Uphill travel is prohibited 24/7 within the Ski Area Boundaries during the winter operating season. Exceptions to this rule are the designated Ridge Terrain and Fingers Access Routes.

### Retention Devices

Skis, Snowboards and Snowblades are to be equipped with appropriate retention devices to prevent runaway equipment. While hiking, equipment is to be tethered to the user or secured to prevent runaway equipment. For more information contact the Ski Patrol or a Lift Operator. Retention devices are available in the Bridger Bowl Ski Shop.

### Rope Closure Lines

Bridger Bowl may use roped or hi-vis fence lines and gates to restrict or close access to some areas of the mountain. Pay attention to these closures and do not enter closed areas. Enter these areas only thru gates when they are open.

**Do Not Ski Under Rope or Hi-Vis Closure Lines**

**SPACE NOT SPEED**  
**Spread Out, Slow Down, and Have Fun!!**

**SKI AND RIDE RESPONSIBLY**

Bridger Bowl has made a commitment to increase efforts in promoting responsible skiing and snowboarding.

**The message is easy:**

Slow down when others are around you.

It's about respecting each other's space and speed.

Always show courtesy to others.

Keep the risks of skiing and snowboarding in perspective. Personal responsibility is key.

**Know your ability level and stay within it.**

# EXTREME AVALANCHE POTENTIAL OUTSIDE THE SKI AREA BOUNDARY

SKI PATROL AVALANCHE HAZARD REDUCTION WITHIN THE SKI AREA BOUNDARY REDUCES BUT DOES NOT ELIMINATE THE RISK OF AVALANCHE

**RIDGE TERRAIN**  
RESTRICTED ACCESS  
AVALANCHE TRANSCIVER REQUIRED  
PARTNER AND SHOVEL STRONGLY RECOMMENDED

★ **WARNING** ★  
INCREASED RISK OF AVALANCHE  
EXPERTS ONLY  
STEEP CHUTES, UNMARKED CLIFFS  
**SKI AND RIDE WITH CAUTION**  
NO EASY WAY DOWN NO HAZARD MARKING  
NO GROOMING NO MARKED TRAILS

**Ski Area Boundary Notice**  
Ski Area Boundaries are Closed Except at Designated Forest Service Backcountry Gates and Access Zones

— Forest Service Backcountry Access Zone  
— Closed Boundary

**DANGER**  
Avalanche Danger and Other Life Threatening Hazards Exist Beyond the Ski Area Boundary.  
If You Choose to Leave the Ski Area Boundary You are Solely Responsible for Your Safety and Welfare.  
No Ski Patrol Services or Avalanche Hazard Reduction Rescue by Gallatin County Search and Rescue - Call 911  
Rescue may be Prolonged - Be Prepared to Survive the Night

**SLOW AREA**  
Yellow shaded areas on the lower mountain indicate slow speed zones.

GO FAST - LOSE PASS

**TERRAIN PARK**  
Proper use of Freestyle Terrain and Features is important. Prior to using Freestyle Terrain, you are responsible for familiarizing yourself with terrain features and obeying all instructions, warnings and signs. Freestyle skills require maintaining control on the ground and in the air. Play it safe when you use the park.

The rating of trails for difficulty is relative only to the trails at Bridger Bowl. The degree of difficulty indicated is for the listed trail only and does not apply to adjacent off trail areas. Degree of difficulty can vary with changing snow and weather conditions.
